DESIGN

TASARIM

Our Design Philosophy...

Our philosophy in industrial design is to combine simplicity with today's requirements while producing products and to integrate ergonomics with aesthetics.

While doing this, it is necessary to act knowing that the quality will occur with good materials.

Therefore, we take this philosophy from pre-production and we carry it to all stages of production.

In that case, we should not forget that aesthetics exist with beauty and that design serves ease of use.

Tasarım Felsefemiz...

Endüstriyel tasarımda felsefemiz, ürünlerin üretirken sadeliği günümüz gereksinimleriyle birleştirmek, ergonomiyi estetikle bütünleştirmektir. Bunu yaparken de niteliğin, iyi malzemeyle oluşacağını bilerek hareket etmek gerekir. İşte biz, bu felsefeyi üretim öncesinden alıp üretimin her aşamasına taşıyoruz.

O halde estetiğin güzellikle var olduğunu, tasarımın kullanım kolaylığına hizmet etmesini unutmamalıyız.
